

TRANSDERMAL PAIN BASE

As part of our constant pursuit in offering only the highest quality products, MEDISCA's Transdermal Pain Base has become a staple in all compounding pharmacies. Transdermal Pain Base is a smooth and thick PLO-base with enhanced antioxidant properties and strong emulsion stability. It's high carrying capacity allows for stable, high-concentration pain formulations to be compounded with ease, and is compatible with active pharmaceutical ingredients (APIs) commonly used for such medications. Compatible with lipophilic, hydrophilic, and salt-forms of drugs, Transdermal Pain Base is free of fragrances, alcohol and petrolatum.
