

PRODUCT NO.: 7907

DISPOSABLE SYRINGE SYSTEM, BD (10mL)

Sterile, Latex Free, For Reconstitution and Unit Dose Dispensing

DESCRIPTION: This system offers a user-friendly design for fluid transfer without the cost of filling pumps. An IV spike affords ready access to large volume parental containers and multidose medication vials. A large reflux valve speeds the process while the unique, ergonomic handgrip design provides steady, even pressure and reduces fatigue. Optional syringe filling connector (not included) allows fluid transfer to syringes. Sterile, Latex Free, Non-Toxic, Non-Pyrogenic.

ADDITIONAL INFORMATION:

Included Parts:

-  10mL Syringe with Volume Adjusting, Self-Returning Handgrip
-  40" (101.6cm) Long PVC Fluid Transfer Set with Valve Assembly Spike
